EXCERPT FROM THE COMPETITION ANNOUNCEMENT FOR SCHOLARSHIPS

ACADEMIC YEAR 2015/2016

The excerpt from the Competition Announcement is published in order to summarize its main regulations and to simplify their comprehension. In case of interpretative doubts, readers should refer to the integral Competition Announcement.

THE SCHOLARSHIP

The scholarship is the main tool to implement the Right to University Education. It consists in a sum of money, which varies according to the students' geographic origin and their expected family contribution, and in a quota consisting in free meals. Students who are suitable for scholarships also have the right to university taxes refund.

The scholarship attributed to an individual with a disability grade of a least 66% has a higher value. Moreover, the scholarship may be increased in case of participation to international mobility programmes. The supplement of money depends on the duration of the period of time spent abroad and the amount of money that the student has already been granted by the University.

The scholarship is income-tax-free (Ministerial Circular n. 109/E of 6.4.1995 Ministry of Economy and Finance). The Certificazione Unica (legal statement for tax return) will be provided.

ENTITLED APPLICANTS

Scholarships for academic year 2015/2016 are addressed to students enrolled in the State University of Milan and the University of Milan-Bicocca who possess together the requirements of Income, Merit and Academic Regularity which will be indicated in the following chapters.

Students enrolled in first level degree courses, second level degree courses and single-cycle degree courses are entitled to apply for the grants provided to ensure the right to education for the regular years of their course established by the corresponding regulations; students enrolled for the first year *fuori corso* (beyond the prescribed time) can apply for a sum corresponding to the 50% of the amount provided to students who have completed the exams of their course on time (students with a disability grade of at least 66% are entitled to apply for a scholarship for an additional year).

Students enrolled in a Doctoral programme (who do not benefit from Scholarships granted in accordance with D.M. 224/1999 and research fellowships in accordance with L. 27/12/1997, n. 449) and students enrolled in Post-graduate Schools in Medicine and Surgery are entitled to apply for a scholarship only for the regular years of their course.

GRANTS

The scholarships are granted by the Lombardy Region and by the Ministry of Education, University and Research (MIUR). Moreover, universities will provide the necessary funds to ensure the scholarships to all eligible students.

MOTIVATIONS FOR EXCLUSION

- Lack of the requirements of Income, Merit and Academic Regularity.
- Enrolment to academic year 2015/16 has not been regularly completed at the moment of the publication of the definite ranking list.
- ~~Assignment of another scholarship or other benefits related to the right to education (bursaries and study awards, ministerial scholarships, contributions for accommodation, tax reduction or tax exemption). The scholarship is compatible exclusively with the contributions granted for~~

study periods abroad, with scholarships granted for excellent merit and with bursaries of interregional mobility in accordance with D.M. of 4th September 2013, n. 755.

- Previous completion of another academic course of the same level (including studies performed abroad).
- Part-time enrolment.
- Enrolment in a course year that has already been attended, in the intermediate *fuori corso* (beyond the prescribe time), or in a repeating year.

REQUIREMENT OF ACADEMIC REGULARITY

Students have to regularly complete their course years, starting from the first enrolment of every degree level. Consequently, students who have previously withdrawn from studies, who have repeated the same year or who have lost their matriculated status are not entitled applicants. University studies performed abroad are included, except for the enrolment meant to cover the minimum 12-year pre-education level which is necessary to enrol in an Italian University.

- *Notwithstanding the deadline of 10th August 2015, the internship exam for the first and second level degree courses of the medical curriculum will be taken into account if completed and registered by 30th October 2015.*
- *In order to obtain the merit requirement, students can use a bonus equal to:*
 - 5 points for the second year of course*
 - 12 points for the third year of course*
 - 15 points for the years following the third one and for the second level degree course**In case the bonus quota is only partially used, the remaining points can be used during the following years without accruing the bonus points provided for the subsequent years.*
- *Students with a disability grade of a least 66% are expected to obtain the requirements indicated in the table with a 40% reduction.*

EXPECTED FAMILY CONTRIBUTION REQUIREMENT

The students' economic and capital status is identified through the ISEE certificate for the right to university education (ISEEU), which students must possess before handing in the application for the scholarship. ISEEU has to be issued in 2015 and refer to the economic status of the students' family unit during the fiscal year 2013 and the capital assets on 31st December 2014.

The expected limits are:

ISEEU not higher than € 20.998,37

and

ISPE (ISP value/equivalence scale) not higher than € 35.434,78

Estimate of foreign students' economic and capital status

As stated by the Ministry of Labour and Social Policy, the current computerized system ISEEU does not enable the estimate of the economic status of the members of foreign students' family unit residing abroad who do not possess the Italian fiscal code. Therefore, what mentioned in section 8, paragraph 5 of DPCM 159/2013 cannot be applied.

Consequently, the economic estimate for academic year 2015/2016 of foreign students whose family unit reside abroad and who do not possess the Italian fiscal code will be calculated on the basis of the ISEE referring only to the applicant student, following the indications reported in the previous paragraphs.

In case some of the members of the family unit possess the Italian fiscal code, they will necessarily have to be declared and included in the ISEE.

In any case, foreign students' income cannot be lower than € 5.830,63, with reference to the minimum means of sustenance that must be demonstrated when applying for the entry visa to Italy for study purposes (D.L. 20.11.2001, published in Gazzetta Ufficiale n. 283 of 5.12.2001 and subsequent amendments). The sum indicated will therefore correspond to the minimum ISR (indicator of income) value.

Acquisition of data

CIDiS will automatically acquire the data referring to ISEEU certificates stored in INPS database. Consequently, students are not required to hand in a digital or printed copy of their ISEEU or DSU (Dichiarazione Sostitutiva Unica): it will be sufficient to indicate their own fiscal code and the number of protocol of DSU issued by INPS when completing the web procedure to submit the application.

AMOUNT OF THE SCHOLARSHIP

The amount of money granted depends on the students' **income range** and **geographical origin**:

The **income range** is determined according to the ISEEU value:

	ISEE/ISEEU value	
	From	to

The travel time can be checked on Trenitalia website, Lombardy Region <http://www.muoversi.regione.lombardia.it> and the websites of local public transport corporations.
